

# Temporary closure of Concorde Way Cycle Path at Bonnington

**To ensure the safety of pedestrians and cyclists while construction of the new Bonnington development is underway, the Concorde Way Cycle Path is now temporarily closed for a maximum period of six months.**

The closure will allow improvements and a new route, including relocating lighting for the cycleway, and separating pedestrians and cyclists. We need to make this closure as we construct the new path with everyone's safety in mind. We will, once existing lighting has been removed, re-open from the Constable Road end to allow access to the community orchard, but there will not be a route through. We are aiming to give this partial access on 16th April, and will give notice when we need to close this section again to continue our works.

**An alternative route through Bonnington Walk, Wordsworth Road, Constable Road and vice versa, is suggested.**

**Although the closure is for six months, we will do our best to open earlier and provide you with a new, safer cycleway and footpath.**
